BESTSELLER

SCRUBBER 50

AWARD-WINNING EXCELLENCE, BEST-SELLING CHOICE.

Scrubber 50 is an AI-powered autonomous floor scrubbing robot that goes beyond the scope of "automation".

Deep-learning algorithms are integrated within a sensor fusion of 2D LiDAR, 3D and RGB cameras, which grant the robot high-accuracy environmental perception and the ability to make advanced operation decisions according to the real-time situation.

THE LATEST EVOLUTION OF SCRUBBER 50 IS OMNIE.

PHANTAS

VACUUMING

SCRUBBING

SWEEPING

DUST MOPPING

ALL IN ONE, ONE FOR ALL. ELEVATING YOUR **GRIP ON INNOVATION**

Phantas is a commercial floor cleaning robot that boldly integrates 4 floor cleaning modes, which grants it unrivaled versatility and usability for cleaning spaces with different types of flooring, both hard and soft. Phantas comes with a new feature - integrated handle, that offers seamless transition between Auto and Manual modes via handle position detection.

The ergonomic handle design makes transportation a breeze aided by the power assistance system, while its intuitive hard buttons allow for smooth operation. Plus, enjoy the added convenience of smart voice guidance. Elevate your handling experience with Phantas - where innovation meets ease.

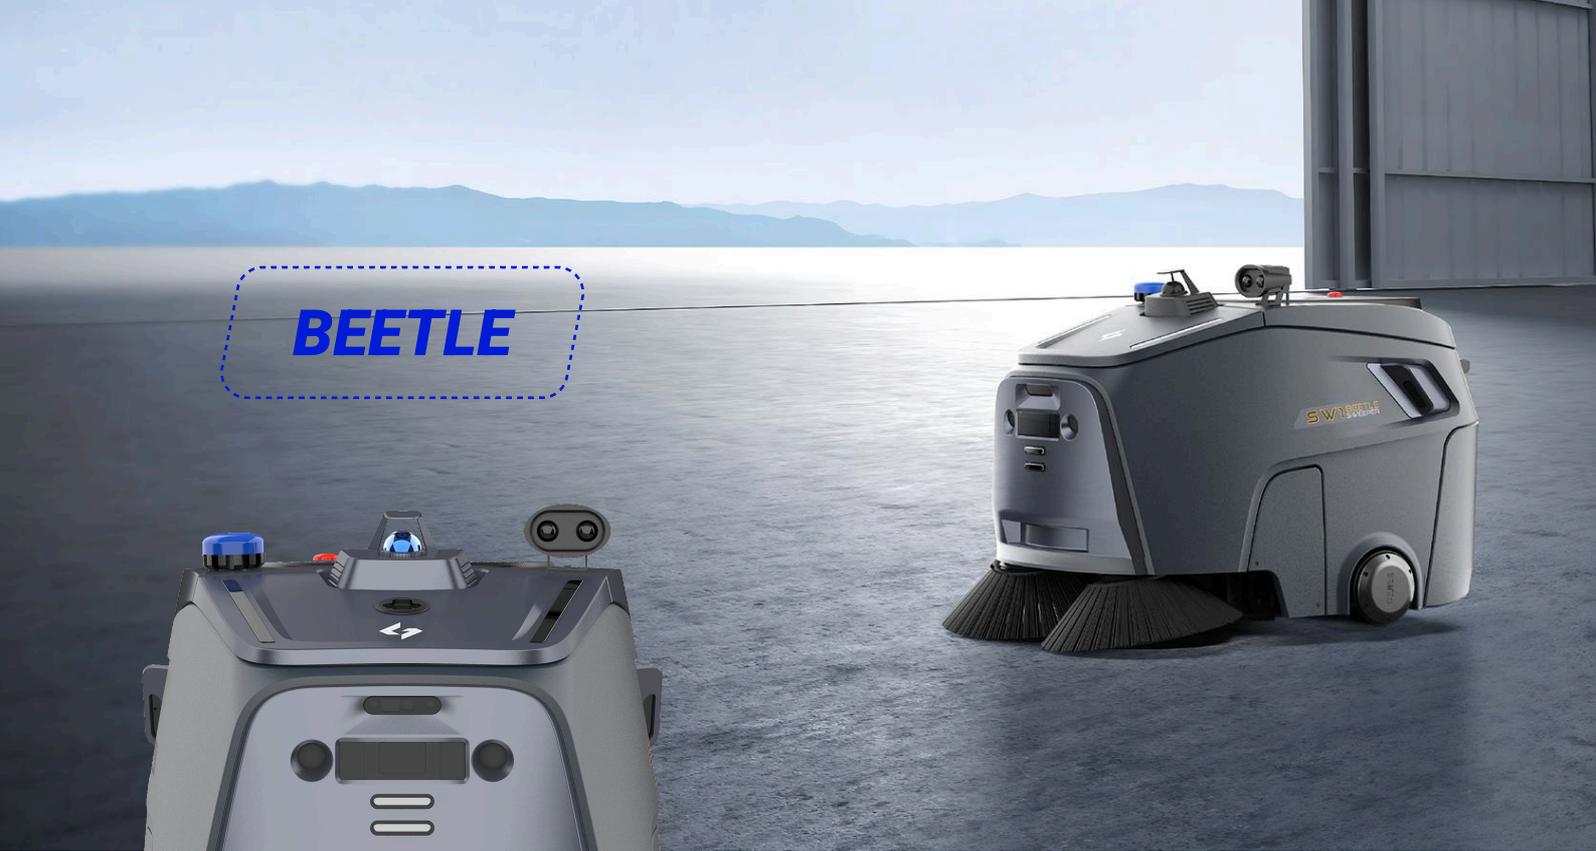

OMNIE

THE PINNACLE OF AI CLEANING TECHNOLOGY.

Omnie is Gausium's high-end autonomous floor cleaning robot designed to excel in complex, dynamic environments like airports, subway stations, and warehouses.

Powered by Gausium's cutting-edge multimodal SLAM, along with a 3D LiDAR and a 360° panoramic view camera, Omnie ensures unparalleled accuracy, adaptability, and safety in tackling challenging cleaning scenarios.

BEETLE

LET'S 'BEETLE' YOUR CLEANING CHALLENGES

Beetle is Gausium's next-generation autonomous sweeper designed for industrial cleaning. This cutting-edge industrial cleaning robot features advanced AI, a 3D LiDAR for mapping and navigation, and seamless integration with warehouse sliding doors.

Beetle ensures efficient, reliable, and dust-free cleaning in even the most challenging environments. Perfect for warehouses, factories, and large-scale facilities!
