HOT WATER

GAS PRESSURE WASHERS

For stubborn grease, grime, and bacteria

DELCO EQUALIZER 65374

- Trailer-Ready Skid Frame
- Gas Power / Oil Heat
- 4 GPM / 4000 PSI

POWERJET PJO4004-12-H-AR

- 6.5/13/14/15 HP Gasoline Engine
- Oil Fired
- 3-4 GPM / 2700-4000 PSI

ALKOTA 4405XD4

- Honda GX390 Start Direct Drive
- Oil Fired Heat
- 4 GPM / 4000 PSI

DELCO STREAMLINE

- Honda Motor Key Start
- Gas Power/Diesel Heat
- 4GPM / 4000 PSI

HOT WATER

ELECTRIC PRESSURE WASHERS

For stubborn grease, grime, and bacteria

LANDA HOT SERIES

- *Electric Power*
- *Diesel/Oil Heat*
- *Up to 3.5 GPM @ 2,000 PSI*

LANDA PHW SERIES

- *Portable Design*
- *Electric Power, Diesel/Oil Heat*
- *Up to 4.8 GPM @ 3,000 PSI*

ALKOTA 420X4

- *Electric Power Source*
- *AR Pump/Belt/5HP-230V*
- *3.5 GPM / 2000 PSI*

DELCO DOMINATOR 65384

- *UDOR Industrial Triplex Pump*
- *6.75 gal diesel fuel tank*
- *Up to 4.0 GPM / 2,000 PSI*

HOT WATER

ELECTRIC PRESSURE WASHERS

For stubborn grease, grime, and bacteria

ALKOTA 430XM

- *Electric Motor w/ Belt Drive*
- *AR Pump/Belt/8HP-230V*
- *3.6 GPM / 3000 PSI*

POWERJET PJ03525E-AR/-FF

- *2/5/7.5 HP Electric Motors*
- *Oil, LP, & NG Fired*
- *3.5 GPM / 2400 PSI*

FEATURES TO BE AWARE OF:

FINISH: *Steel vs Powder Coated Normally customers go with powder coating except food plants would want steel.*

ENGINE: *Honda vs CRX Delco really feels like their CRX are equivalent but Honda Brand awareness can sell the unit - most vendors allow an upgrade .*

PUMP: *UDOR vs General Pump UDOR is Italian made pump with great success at Delco - very high on this vendor - treat it as a high-end spec.*

FRAME: *Aluminium vs Steel*

DRIVE: *Belt vs Direct Belt drive pressure washers are more durable, run cooler, and are better for heavy-duty, continuous use because a belt connects the engine to the pump, slowing the pump's RPM and reducing vibration and heat transfer. Direct drive pressure washers are less expensive, more compact, and ideal for light to moderate residential use because the engine and pump are directly coupled, causing the pump to run at the engine's high RPM. MiTM likes to classify the Belt Machines into 40hrs per wk usage vs Diect Drive in the 20-30hrs per week.*

CLEANING UNITS: *PSI*GPM General indicator of performance of machine in what is termed cleaning units.*

COLD WATER GAS PRESSURE WASHERS

For everyday caked-on dirt and debris

HD GAS SERIES

- Convertible from Cart to Skid
- Gas Power
- Up to 5 GPM / 4,000 PSI
- Honda Motor

POWERJET GAS

- Portable Steel Chassis
- Gas Power
- Up to 4 GPM / 4,000 PSI

POWERJET PJ404GHAR/ALU

- 6.5/13/14/15 HP Gasoline Engine
- Gas Power
- 3-4 GPM / 4,000 PSI

LANDA PRO AM HD

- F7 direct-drive pump
- Gas Power / GX 200
- 3.0 GPM / 2700 PSI

COLD WATER

ELECTRIC PRESSURE WASHERS

For everyday caked-on dirt and debris

KARCHER HD 1.8/13

- *Intelligently designed service concept*
- *Electric Power / 376 / 424V*
- *3 GPM / 1300 PSI*

ALKOTA WALL MOUNTER BD

- *Portable or Stationary*
- *Electric Power / 10 HP*
- *2-5 GPM / 3,000 PSI*

LANDA HD ELECTRIC

- *Portable Roll Cage Design*
- *1.9 GPM / 1300 PSI*
- *Electric or Gas Power*

SEA SERIES

- *Convertible from Skid to Cart*
- *Electric Power*
- *Up to 4.2 GPM / 3,000 PSI*
