## PRESSURE WASHER

SPRING 2026

# SHOWROOM

# HOT WATER PRESSURE WASHERS

**GAS**

*For stubborn grease, grime, and bacteria*

## **LANDA MHC4**

- 3.5 GPM @ 3500 PSI
- Honda GX390 Engine/Belt Drive
- Gas Powered Diesel / Oil Heated

## **POWERJET PJO4004-12-H-AR**

- 6.5/13/14/15 HP Gasoline Engine
- Oil Fired
- 3-4 GPM / 2700-4000 PSI

## **ALKOTA 4405XD4**

- Honda GX390 Start Direct Drive
- Oil Fired Heat
- 4 GPM / 4000 PSI

## **DELCO STREAMLINE**

- Honda Motor Key Start
- Gas Power/Diesel Heat
- 4GPM / 4000 PSI

# HOT WATER

## PRESSURE WASHERS

## ELECTRIC

*For stubborn grease, grime, and bacteria*

### LANDA HOT SERIES

- Electric Power
- Diesel/Oil Heat
- Up to 3.5 GPM @ 2,000 PSI

### ALKOTA 216X4

- Electric Power Source
- AR Pump/Belt/2.3HP-115V
- 2.0 GPM @ 1600 PSI

### DELCO DOMINATOR 65384

- UDOR Industrial Triplex Pump
- 6.75 gal diesel fuel tank
- Up to 4.0 GPM / 2,000 PSI

### POWERJET PJ03525E-AR/-FF

- 5HP, 220V, Electric Motors
- Oil, LP, & NG Fired
- 3.5 GPM / 2400 PSI

# HOT WATER

## PRESSURE WASHERS

## ELECTRIC

*For stubborn grease, grime, and bacteria*

### **ALKOTA 430XM**

- *Electric Motor w/ Belt Drive*
- *AR Pump/Belt/8HP-230V*
- *3.8 GPM, 3000 PSI*

#### **FEATURES TO BE AWARE OF:**

**FINISH:** *Steel vs Powder Coated Normally customers go with powder coating except food plants would want steel.*

**ENGINE:** *Honda vs CRX Delco really feels like their CRX are equivalent but Honda Brand awareness can sell the unit - most vendors allow an upgrade .*

**PUMP:** *UDOR vs General Pump UDOR is Italian made pump with great success at Delco - very high on this vendor - treat it as a high-end spec.*

**FRAME:** *Aluminium vs Steel*

**DRIVE:** *Belt vs Direct Belt drive pressure washers are more durable, run cooler, and are better for heavy-duty, continuous use because a belt connects the engine to the pump, slowing the pump's RPM and reducing vibration and heat transfer. Direct drive pressure washers are less expensive, more compact, and ideal for light to moderate residential use because the engine and pump are directly coupled, causing the pump to run at the engine's high RPM. MiTM likes to classify the Belt Machines into 40hrs per wk usage vs Diect Drive in the 20-30hrs per week.*

**CLEANING UNITS:** *PSI\*GPM General indicator of performance of machine in what is termed cleaning units.*

# COLD WATER

## PRESSURE WASHERS

# GAS

*For everyday caked-on dirt and debris*

### **HD GAS SERIES**

- Convertible from Cart to Skid
- Gas Power
- Up to 5 GPM / 4,000 PSI
- Honda Motor

### **POWERJET GAS**

- Portable Steel Chassis
- Honda Gas Power
- 3 GPM / 2700 PSI

### **POWERJET PJ404GHAR/ALU**

- 6.5/13/14/15 HP Gasoline Engine
- Gas Power
- 3-4 GPM / 4,000 PSI

### **LANDA HD GAS PLUS**

- Direct-drive pump
- Gas Power / GX 200
- 3.0 GPM / 2700 PSI

# COLD WATER

## PRESSURE WASHERS

## ELECTRIC

*For everyday caked-on dirt and debris*

### **KARCHER HD 1.8/13**

- *Intelligently designed service concept*
- *Electric Power*
- *1.8 GPM / 1300 PSI*

### **ALKOTA WALL MOUNTER BD**

- *Portable or Stationary*
- *Electric Power / 10 HP*
- *2-5 GPM / 1500-3000 PSI*

### **LANDA HD ELECTRIC**

- *Portable Roll Cage Design*
- *Electric Power*
- *1.9 GPM / 1300 PSI*

### **SEA SERIES**

- *Portable or Stationary*
- *Electric Power*
- *Up to 4.2 GPM / 3,000 PSI*

POSTAGE

**New England Cleaning Equipment**  
96 Moore Road, Weymouth, MA 02189  
**Phone:** 508-947-0570
